INSTALLATION REQUIREMENTS

All works displayed must be original.

No reproductions will be accepted¹.

- All 2 Dimensional works MUST BE ready to hang upon delivery to SSAC.
- 3 Dimensional works (Sculpture, Ceramics, etc.) will be displayed on pedestals and require the artist to indicate the “front” of the piece².

The SSAC reserves the right to accept or reject any art works on the basis of its suitability and or appropriateness³.

The date and time of installation (see the application) refers to the time that ALL artworks must be delivered to SSAC and remain there for the duration of the exhibition.

Frame and Wiring Requirements (2D artwork)

- All hanging art must be suitably wired and ready to install
 - Wiring must be appropriate to the weight of the artwork⁴. Rings or screw eyes must be installed on both sides of the frame. Rings or screw eyes must be positioned no lower 6” from the top of the frame.
- All works must be wired with triple-strand wire, that means it must be appropriate to the size and weight of the work.
- Unfinished artwork (i.e wet paintings) or ones with faulty frames will NOT be accepted.

Requirements/Restrictions (3D artwork)

- Sculpture in stone or cast in metal may be subject to weight restrictions.

Labels

Printed labels for each work will be provided and affixed to the display by the SSAC when the installation is completed. To facilitate this, each artwork must have two identification labels

Label 1- All artists must attach a label to the back of their artwork

3 Dimensional artwork should have the back label securely fastened so it is out of sight (if possible) when placed on display.

Label 2 -Each artwork requires a front label that is loosely attached for easy removal after printed labels are installed. The label includes the name of the artist, title, medium and price.

All work not for sale must be marked “NFS”.

What does that mean?

1-“Reproductions” in this context refers to copies, whether mechanical or digital, of original artwork that are not intended to be the “original” piece. Exceptions to this are “limited edition prints”and photographic prints.

2-“the front” of the piece is required so that the instalation/hanging committee know which is the proper orientation to display the artwork as the artist intended.

3- Although it is not the policy of the SSAC to censor artwork sometimes it is necessary to review the “appropriateness” as it applies to the theme of the show.

4- Triple strand wire is available in various pound limits (i.e. 10lbs, 20lbs, 50lbs) please select the highest to ensure the greatest measure of security.

Some useful tips

It's always a good idea to wrap sharp edges of wiring with masking tape. This protects the person handling and hanging the piece.
